WANDER

WITHOUT

FEAR

We are a collection of independent, design-driven townhouse villas nestled in the heart of Canggu. Made originally to satisfy our dear friend's vagabond lifestyle, VOX Villas has evolved into a botanical retreat for those that want a bit of it all. However, above everything else we strive to provide a sense of ease through our people, place, and design.

With our Wander Without Fear map we want to show you our most loved places in Canggu. This is not merely a tool of navigation, but an invitation to embark on a journey of discovery and wonder.
